

- The aim of an equipment Colour Coding system is to prevent cross contamination during the cleaning process.
- Always use two colours within the washroom/sanitary area.
- The colour coding system relates to all cleaning equipment, cloths and gloves.
- It is vital that a system forms part of employee training programme.

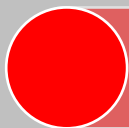

BLUE

General low risk areas

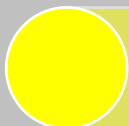

GREEN

General food and bar use

RED

**Sanitary fittings and
washroom floors**

YELLOW

**Wash basins and other
washroom surfaces**

The Colour Coding of cleaning equipment is a simple but important step that will make a large contribution to hygiene standards and the elimination of cross infection.
